

Forrest Transport have provided transport services for Steel Fabrications Australia (formerly Brisbane Steel Fabrications Pty Ltd) for in excess of 12 years. The main service provided has been the loading and transport of Structural and Materials Handling fabricated and surface finished steelwork. Our average output would be in excess of 10,000 tonnes per annum.

FTS have a comprehensive fleet of trailers and prime movers, that meet with all our operational requirements.

All drivers are capable and experienced, with a detailed knowledge of requirements and regulations relating to the safe and timely loading and delivery of our product. The firm provides a proactive and professional approach to improve efficiency of transport and services.

Regards,
Jayne Allen
